Instructions for Borrower

A person (including a financial institution, a governmental unit, and an educational institution) that receives interest payments of \$600 or more during the year on one or more qualified student loans must furnish this statement to you.

You may be able to deduct student loan interest that you actually paid in 2004 on your income tax return. If your student loan was made before September 1, 2004, you may be able to deduct additional amounts, such as loan origination fees and capitalized interest, not reported on this statement. However, you may not be able to deduct the

full amount of interest reported on this statement. **Do not** contact the recipient/lender for explanations of the requirements for (and how to figure) any allowable deduction for the interest paid. Instead, for more information see **Pub. 970**, Tax Benefits for Education, and "Student Loan Interest Deduction Worksheet" in your Form 1040 or 1040A instructions.

Box 1. Shows the interest received by the lender during the year on one or more student loans made to you.

Box 2. Shows if loan origination fees and/or capitalized interest are included in box 1.
