General Program Guidelines as Established Under Revenue Procedure 2003–9

SECTION 1. PURPOSE

1. These guidelines provide procedures for the Internal Revenue Service’s Taxpayer Identification Number (TIN) Matching Program. The program is established for payers of income reported on Form 1099, that is subject to the backup withholding provisions of the Internal Revenue Code (IRC) Section 3406(a)(1)(A) and (B).

Prior to filing an information return, a program participant may compare the TIN furnished by the payee with the name/TIN combination contained in the Internal Revenue Service database that is maintained for the Program.

2. The IRS will maintain a name/TIN database specifically for this program, and will inform the payer whether or not the name/TIN combination furnished by the payee matches a name/TIN combination in the database.

3. The matching details provided to participating payers and their authorized agents will help avoid TIN errors and reduce the number of backup withholding notices required by IRC Section 3406(a)(1)(B).

SECTION 2. AUTHORITY

1. The Interactive and Bulk Taxpayer Identification Number (TIN) Matching Programs are established by authority of Revenue Procedure 2003–9, which expands the IRS authority provided in Revenue Procedure 97–31, to allow the on-line matching of taxpayer identifying information as provided by payers of income reported on Forms 1099–B, 1099–DIV, 1099–INT, 1099–MISC, 1099–OID, and 1099–PATR.

SECTION 3. BACKGROUND

1. IRC Section 31.3406(a) (1) provides, in part, that the payer shall deduct and withhold income tax from a reportable payment if either –

(a) The payee fails to furnish the payee’s Taxpayer Identification Number (TIN) to the payer in the required manner, or

(b) The Secretary of the Treasury notifies the payer that a TIN furnished by the payee is incorrect.

2. Section 31.3406(j) – 1(a) of the Employment Tax Regulations provides that the Commissioner has the authority to establish TIN Matching Programs and may prescribe, by revenue procedure or other guidance, the scope, terms, and conditions for participating in such programs.

3. Section 31.3406(j) – 1(b) provides that none of the matching details received by a payer through a TIN Matching Program will constitute a notice regarding an incorrect name/TIN combination under IRC Section 31.3406(d) – 5(c) for the purpose of imposing backup withholding under IRC Section 31.3406(a)(1)(B).

4. Section 31.3406(j) – 1(c) provides that IRC Section 3406(f), relating to confidentiality of information, applies to any matching details received by a payer through a TIN Matching Program. A payer may not take into account any such matching details in determining whether to open or close an account with a payee.

5. Section 6721 provides that a payer may be subject to a penalty for failure to file a complete and correct information return with the Internal Revenue Service.

6. Section 6722 provides that a payer may be subject to a penalty for failure to furnish a complete and correct information statement (payee statement) to a payee. Not including the correct payee TIN on an information return or payee statement is a failure subject to IRC Section 6721 and Section 6722 penalties.

SECTION 4. DISCLOSURE AND PRIVACY

1. IRC Section 3406 permits the disclosure of taxpayer name/TIN combinations to certain third-party payers. Such disclosure is allowed for reportable payments subject to backup withholding only.

2. IRC Section 6103 protects the confidentiality of TINs.

3. Third-party payers, and their authorized agents, who participate in the TIN Matching Program must sign on-line,

a Terms Of Agreement (TOA) clause stating they will only attempt to match name/TIN combinations for the types of reportable payments listed in Revenue Procedure 2003–9.

4. Failure to adhere to the stated TOA may constitute an unauthorized disclosure and/or violation of the Computer Security Act of 1987.

5. Unauthorized use of the Program could cause payers, their agents, and authorized users to become liable for civil penalties under Internal Revenue Code Section 7431.

SECTION 5. Program Access and Fees

1. The TIN Matching Program is accessible via the IRS home page located at www.irs.gov.

2. Except for times of scheduled maintenance, users will be allowed to access the system 24 hours a day, to submit TINs for matching.

3. The IRS does not currently charge a fee to participate in the TIN Matching Program.

4. The IRS does not currently charge a fee to access the name/TIN Database, maintained specifically for the TIN Matching Program.

SECTION 6. Program Terms Defined

For the purpose of the TIN Matching Program, the following terms will be defined:

1. **“Participant”** — A person that is either a payer or a payer’s authorized agent, and that has applied to, and been accepted to participate in the program.

2. **“Participating Payer”** — A payer that is a participant in the program, either personally or through an authorized agent.

3. **“Payee”** — A person to whom a reportable payment, as defined in IRC Section 3406(b), has been made, or is likely to be made by a participating payer.

4. **“Account”** — Any account, instrument, contract, or other relationship with a payee about which a payer is likely to make a reportable payment. (See IRC Section 3406–3(e) of the Temporary Employment Tax Regulations)

5. **“Reportable Payment”** — Interest and dividend payments as defined

in IRC Section 3406(b)(2), and other reportable payments as defined in IRC Section 3406(b)(3).

6. **“TIN”** — (Acronym for Taxpayer Identification Number) — The identification number that a payee is required to furnish to a payer. The TIN may be an Employer Identification Number (EIN), a Social Security Number (SSN), or an Internal Revenue Service Individual Taxpayer Identification Number (ITIN), per IRC Section 6109.

7. **“Principal”** — A partner or individual who owns at least five percent (5%) of the firm that is applying to participate in the TIN Matching Program. The “principal” may also be a corporate officer of a publicly traded firm, such as President, Vice-President, Secretary or Treasurer. The “principal” must be a person that can legally obligate the firm in matters before the IRS. The duties of the “principal” include completing the original application to TIN Match on behalf of the firm and assign/disable all other user roles (“responsible official”, “authorized agent” and “delegated user”). The “principal” may also update the application on behalf of the firm and perform TIN Matching.

8. **“Responsible Official”** — An individual who holds a supervisory position within the firm. A “responsible official” has the authority to update an application on behalf of their listed firm. The “responsible official” may only assign/disable “authorized agent” and “delegated user” roles, update participating office locations and perform TIN Matching.

9. **“Authorized Agent”** — Person or firm, that with the payer’s authorization, transmits specific Information Return Program (IRP) documents to the IRS on behalf of the firm, and may match name/TIN combinations on behalf of the payer. An “authorized agent” may only assign/disable user access within their assigned location, update location address information, and perform TIN Matching.

10. **“Delegated User”** — An individual who utilizes the TIN Matching session options on behalf of the firm. A “delegated user” may not assign or disable users or update applications on behalf of their assigned firm. A “delegated user” may only perform TIN Matching on behalf of their assigned firm.

11. **“Transmitter”** — The Federal agency sending in the magnetic tape car-

tridge containing the TINs for matching purposes.

12. **“Transmitter Control Code - TCC”** — The IRS assigned code for each participant in the Federal Agency TIN Matching Program.

13. **“Authorized Payer”** — Payer who has filed information returns with the IRS in at least one of the two preceding tax years.

2. Not including the correct payee TIN on an Information Return or payee statement is a failure subject to penalties under IRC Section 6721 and Section 6722.

3. IRC Section 6724 provides that the Service may waive the penalties under Section 6721 and Section 6722 if the filer (payer) shows that the failure was due to reasonable cause and not due to willful neglect. The Internal Revenue Code regulations under Section 6724 provide that a filer (payer) may establish reasonable

cause by showing, among other things, that the failure arose due to an event beyond the filer's control.

4. IRC Section 31.3405(j)-1(d) provides that the Service will not use a payer's decision not to participate in the TIN Matching Program as a basis to assert that the payer lacks reasonable cause under Section 6724(a) for failure to file a correct Information Return under Section 6721 or to furnish a correct payee statement under Section 6722.

5. Under IRC Section 6724(a), participating payers may cite a payee name and TIN match as reasonable cause for penalty waiver if the Service asserts a penalty under Section 6721 or Section 6722 of the Internal Revenue Code. The Service will consider a penalty waiver if the participating payer presents documentation of the match in the following manner:

a) Payers must provide to the Service a legible copy of the original match transaction for the name/TIN combination on which the penalty has been assessed.

b) Penalties must have been assessed after the date of the original match trans-

action for the name/TIN combination in question.

c) Payers must request the abatement of penalty, in writing, citing the use of the TIN Matching Program resulting in a positive match response.

d) Payers may only request the abatement of penalties assessed due to a failure to file a correct Information Return. Other penalties assessed under the Information Returns program are not eligible for these abatement procedures.

Interactive Results

This screen provides you with the results of your TIN Match request. The "Match Indicator" displays a code next to the TIN and name combination. Use the codes below to interpret your results:

- 0 = TIN and name combination matches IRS records
- 1 = TIN was missing or TIN is not a 9 digit number
- 2 = TIN entered is not currently issued
- 3 = TIN and name combination do not match IRS records
- 4 = Invalid TIN Matching request
- 5 = Duplicate TIN Matching request

IMPORTANT! Before leaving this screen, you may want to do a "Print Screen" of the results. Once you exit this screen, the interactive results will no longer be available for viewing.

Using the TIN Matching system allows you to verify the accuracy of taxpayer TIN and name information prior to submitting information to IRS. Internal Revenue Code 6724 provides any penalties under Section 6721 may be waived if the filer shows the failure to file a correct TIN on an information return was due to reasonable cause and not willful neglect. Filers may prove due diligence and receive a waiver from proposed penalties if they prove the TIN and name combination they submitted matched IRS records. Providing a copy of the "Print Screen" of your Interactive results will be considered proof of due diligence.
