94x XML Development News

07/01/2002

Based on feedback received at the June 27, 2002 94x XML Trading Partner Breakout Session, An error was identified with the definition of the "WithheldTaxAdjustmentForPeriod" in the IRS941c.xsd . The Restriction Base is defined as DecimalNNType, and must be changed to DecimalType.

This change is required in order to properly implement the 941c in XML. This represents a fairly minor change, but must now be processed through our configuration management process.
