SECTION 8 STATE RECORDS

Generic Record

The generic record is used by states for various state income tax forms. In order to program software using the generic record developers must obtain a copy of the states' software specifications.

The State Direct Deposit Section should be blank if there is no direct deposit or direct debit at the state level. There is no connection between the federal and state direct deposit or direct debit fields since these can differ.

The Consistency Section contains fields which when non-zero are checked against the corresponding 1040 field. If non-equal the taxpayer's returns will be rejected.
