Timolol Maleate – CLARIFICATION (Published 9/28/04)

Timolol Maleate 0.5% Ophthalmic Solution currently has a FUL of \$0.9000. It has recently come to our attention that Ista Pharmaceuticals has received FDA-approval for Istalol, which is their version of Timolol Maleate 0.5% Ophthalmic Solution. The FDA has determined that Istalol is not therapeutically equivalent to the other versions of Timolol Maleate 0.5% Ophthalmic Solution that are currently on the market. Therefore, the FUL of \$0.9000 does not apply to Istalol. However, the FUL does continue to apply to all other versions of Timolol Maleate 0.5% Ophthalmic Solution.
