Data sampled on 5/3/02 - H:Stat Pak/2002 MAY Table II

Appendix

Notes Regarding Tables I and II

Note 1: Tables were run on 5/03/02. Only applications assigned to a program by that date were included. There was one grant not coded to a program at the time that this report was generated. Applications that had been withdrawn by that date were excluded. For Table II, only applications that had been assigned to a program, reviewed, and percentiled by that time were included. (All applications meet this criterion for this Council Round.)

Note 2: (Table 1) Research Program Grant applications shown in the first line include R01, P01 (program projects), R15 (Academic Research Enhancement Awards) and R21 (Planning Grant awards). Small grant applications (R03) are shown separately on the following line. Contracts are not included. Costs shown are the first year total direct costs requested. Facilities and Administrative costs are not included.

Note 3: Data include applications to be reviewed by Council, applications considered not competitive and applications requesting \$50,000 or less.

Note 4: The data may include competing supplements to existing grants. These supplements are counted as separate applications except in the Center line.

Note 5: (Table 2) R15 and R21 applications are not percentiled. Applications in response to RFAs are not percentiled. That is why the "number reviewed" in Table 2 is less than the corresponding number of applications in line 1 of Table 1. The data in Table 2 do not include R03 applications.
