SOFTWARE TECHNOLOGY SUPPORT CENTER

MASE • 6022 Fir Avenue • Building 1238 • Hill AFB, UT 84056-5820
(801) 775-5555 • FAX (801) 777-8069 • www.stsc.hill.af.mil

Aligning software technologies and processes with your organization's strategy, infrastructure, and personnel gives you an advantage in today's environment of tight budgets, information overload, and changing customer requirements.

The Software Technology Support Center (STSC) is an Air Force organization providing knowledge, experience, and results for government organizations in:

- Capability Maturity Model® and Capability Maturity Model Integration®
- Configuration Management
- Independent: Expert Program Reviews
- Independent: Verification and Validation
- Interim Profiles and CMM® Appraisals
- Personal Software Process℠ or Team Software Process℠
- Process Definition
- Project Management
- Requirements Engineering and Management
- Risk Management
- Software Acquisition
- Software Cost Estimation
- Software Measurement
- Software Process Improvement
- Software Quality, Inspection, and Test
- Theory of Constraints

The STSC is also well-known for their information dissemination services, CrossTalk and the Systems and Software Technology Conference.
