Major Duties:

The incumbent serves as a Biological Science Lab Technician in the ARS, Eastern Regional Research Center, Dairy Processing Products Research Unit located in Wyndmoor, PA. Typical, but not all-inclusive, duties are illustrated by performance of any combination of the following:

Assists in one or more phases of the research process by performing a variety of technical duties, in a laboratory, field, or greenhouse environment, common to the assigned area of work. Performs routine and recurring techniques and studies using a variety of specialized equipment. Maintains, calibrates and modifies equipment and automated systems used for test and evaluation procedures. Collects, prepares, evaluates, and verifies samples and supporting records; maintains records and located and compiles data and other information from various sources. Keeps detailed records of experimental data. Tabulates, statistically analyzes and summarizes data using personal computers and software packages. Maintains inventory of chemicals, prepares solutions and reagents for use in the laboratory, field, or greenhouse, and safely disposes of waste material (both chemical and biological).

Working Conditions and Other Considerations:

The work requires some physical exertion, such as regular and recurring running, walking, or bending. In many situations, the duration of the activity contributes to the arduous nature of the job. In other situations, there may be special requirements for agility or dexterity such as exceptional hand/eye coordination.

The work involves regular and recurring moderate risks or discomforts which require special safety precautions, e.g., working with contagious diseases or irritant chemicals or working outdoors. The employee will be required to use protective clothing such as gowns, goggles, and gloves.

Qualifications Required: Your education and experience will be evaluated against all qualification requirements (basic and any additional requirements) listed below.

Basic Requirements

Education:

Education must have been obtained in an accredited technical school, junior college or university for which high school graduation or the equivalent is the normal prerequisite.

GS-6: 1/2 year of graduate school that is directly related to the work of the position meets the requirements.

OR

Experience:

Applicants must have 1 year of specialized experience equivalent to the next lower grade level, which is typically in or related to the work of the position. (See specialized experience below.)

If qualifying all or in part based on your education, please submit a copy of your college transcripts OR a list of college courses with credit hours, dates completed, and grades received. If this information is not provided, your education may not be appropriately evaluated and you may lose consideration for this position. If your qualifications are based in any part on education and you are selected for this position, you will have to provide an official copy of your academic transcripts prior to entering on duty.

Time-In-Grade Restrictions apply for all candidates considered under Merit Promotion/Alternative Merit Promotion.

Specialized Experience - experience which has equipped you with the following Knowledge, Skills and Abilities - 'KSAs' required to perform the duties of this position:

1. Knowledge of the basic principles of biological science to perform routine or recurring analyses, record instrument readings, collect samples, and take measurements.
2. Skill in the operation of equipment common to the specific area of work to achieve desired results.
3. Ability to keep exact and detailed records of data obtained from experiments.
4. Ability to operate a personal computer using word processing and/or other software programs.

Other Important Information

Benefits Package:

A Benefits Package is not authorized for this position. Additional information about Federal benefits can be obtained at www.usajobs.opm.gov/ei61.htm.
