Major Duties:

The position is located in the Plant Science Research Unit involved in research of transgenic soybeans. The incumbent assists in one or more phases of the research process by performing technical duties in the laboratory, field, or greenhouse. Performs routine and recurring biological techniques to include maintaining plant cell cultures and greenhouse plants and preparing culture media using specialized equipment such as, scales, pH meters, spectrophotometers, autoclaves, and centrifuges; maintains, calibrates, and modifies equipment and automated systems used for test and evaluation procedures; collects, prepares, evaluates, and verifies samples and supporting records; keeps detailed records of experimental data; tabulates, statistically analyzes and summarizes data using personal computers and software packages; maintains inventory of chemicals; prepares solutions and reagents for use in the laboratory, field or greenhouse.

Qualifications Required: Your education and experience will be evaluated against all qualification requirements (basic and any additional requirements) listed below.

Basic Requirements

GS-05: Applicants must have one year of specialized experience equivalent to the GS-04 level or four full years of post high school education leading to a Bachelor's degree with major study or at least 24 semester hours in any combination of scientific or technical courses such as biology, chemistry, statistics, entomology, animal husbandry, botany, agriculture or mathematics. At least 6 semester hours must have been in plant science.

If qualifying all or in part based on your education, please submit a copy of your college transcripts OR a list of college courses with credit hours, dates completed, and grades received. If this information is not provided, your education may not be appropriately evaluated and you may lose consideration for this position. If your qualifications are based in any part on education and you are selected for this position, you will have to provide an official copy of your academic transcripts prior to entering on duty.

Specialized Experience - experience which has equipped you with the following Knowledge, Skills and Abilities - 'KSAs' required to perform the duties of this position:

1. Knowledge of the basic principles and techniques of plant science.
2. Skill in the operation and maintenance of laboratory equipment.
3. Skill in the use of personal computers and software packages to collect, analyze and summarize data.

Other Important Information

Benefits Package:

A Benefits Package is not authorized for this position. Additional information about Federal benefits can be obtained at www.usajobs.opm.gov/ei61.htm.
