[REDACTED]

[REDACTED] MERDC, Fort Belvoir, is currently doing some testing on the CBU-55, and by having coordinated their test plan with DTC and CINCPAC, it is felt that the requirements of PA-10 might be fulfilled. PAC-11 (Develop and Test Emergency Destruction or Neutralization Procedures for the MC-1 Gas Bomb) will be addressed by Test 73-11. PA-14 (Develop Means for Removing Vegetation Other Than by Currently Available Herbicides) has been referred to Dr. Mizarik, Vegetation Control Division, Edgewood Arsenal.
