

Welcome to the Marine Corps Engineer School. On behalf of the entire staff of officers, staff noncommissioned officers, enlisted Marines and civilian personnel, I extend a warm and personal welcome.

For more than 50 years, the Marine Corps Engineer School has been producing trained and qualified basic, journeymen, chief and officer warfighters, to the operating forces.

Courthouse Bay is an ideal location for engineer training, with indoor classrooms, and many acres of training areas and ranges. Although classroom instruction is necessary at times, we emphasize "hands on" practical application training to enhance learning the "art" and "science" of the Marine Corps Engineer.

My staff and I stand ready to assist you in any way possible and we welcome your comments and recommendations for improving our site and/or our curriculum.

J. N. FLOWERS
Colonel, U.S. Marine Corps
Commanding Officer
