Medicare Savings Programs - Screening Tool for Professionals

Complete the following information to find out if an individual may qualify for the Medicare Savings Programs. This is just a screening tool. Each state has specific income and resource criteria for enrollment. Prior to beginning the screening, please inform the individual of the following: *"This is a preliminary, voluntary screening to see if you might be eligible for State programs that are part of the medical assistance program that help pay Medicare expenses. It is not an application for these programs. The information you provide will assist us in determining if you may be eligible for these programs. We will <u>not</u> be maintaining a permanent record of the financial data that you provide, nor will we use the data in any other way."*
