

BID LIST NO. 0450

SPECIFICATION FOR GLOVES, GENERAL PURPOSE, VINYL COATED, LARGE

PROPERTY NO. 261173, 261181

General Requirements

Gloves covered under this specification are general-purpose work gloves used for protection of worker's hands against puncture and abrasion in applications such as handling sheet metal. The gloves shall be liquid repellent, but not necessarily liquid proof.

Specific Requirements

Construction: Gloves to be vinyl coated, knit lined, with knit wrist. The lining shall be seamless. The coating shall be abrasion and puncture-resistant with a slip-resistant "sandpaper" textured coating. The vinyl coating shall cover the entire glove except the knit wrist.

Overall appearance: The coating of the glove shall not feel greasy, tacky, or have an objectionable odor. The size shall be clearly marked on the glove.

Size: Men's large

Sample Requirement

One pair of gloves is required.
