

SPECIFICATION FOR WHITE LATEX SEMIGLOSS PAINT

PROPERTY NO. 285838

General Requirements

The paint is to be a semigloss white latex paint for interior use and must comply with Federal Specification TT-P-1511B, Type I, Class B, a high hiding white (color 27925), suitable for use as is, or as a tint base.

Specific Requirements

Titanium dioxide content 20.0% min. (mass % of paint)
(TAPPI T-627)

Other Requirement

A one gallon sample and a Material Data Safety Sheet of the paint are required for testing purposes. All paint containers must have a label showing the percentage of ingredients of the paint formulation (especially the titanium content), the product name, product number, warning (where required) and directions for use.
