attn Office of the Secretary

Gentlemen -

"Made in the U.S.A." F.T.C. file #
8894219

do not change the products made
in the U.S.A. to allow ^{any} product
~~whose~~ ^{whose} total mfg. cost is 75% domestic
to qualify for the "Made in the U.S.A." label.

I & my husband and family (12 members) love
this country. We all search for items made
in the U.S.A. Please don't homogenize us
in with everybody (the entire world). Give us
a little identity. You're not building this country.
You're tearing it down. We were a people who
settled this country - set an example. The
other countries must follow our example. Look
what we do or have done to children (not making
them responsible) Help these other countries - not
hiring child labor - human rights etc. don't lower
our standards - bring up all the others. Thank you

Richard & Mary P. Drennen
