Dear Secretary of Federal Trade et al,

We want to know that reading a label that states Made in USA means just that! Otherwise, we will be cheated! We want our workers to have the work. We'll pay a little more to know our dollars are staying here whenever possible.

Do not have our policies and regulations "watered down" more. Let us know that "Made in the USA only" is what we want to buy and continue to feel proud of our great country.
