

DEAR MR CLARK,

STAND UP FOR AMERICA
AND AMERICANS!

DO NOT DEVALUATE OR DEGRADE
THE "MADE IN THE USA" LABEL.

I know you are under
pressure from other Americans
and some American companies
to help them be "more competitive"
in the world market by using
low paying workers in third
world countries to manufacture
or assemble products and send
them back to the United States
for us to buy. I am asking
you to, whenever possible, try
to assist the world market
to pay decent livable wages
to all workers throughout the
world in all of your endeavors.

DO NOT CHANGE THE MEANING
OR "MADE IN THE USA" THIS AUGUST!

BILL WILTRACK
