Re: Made in USA Policy Comment

To whom it may concern:

I have read with interest, and grave concern, the materials recently sent to me by the Federal Trade Commission regarding proposed new standards for "Made in U.S.A." Claims

Nothing in the FTC material convinces me that we should water down the present "all or virtually all" standard. We stand with those who believe that anything less is deception of the consumer. Do not cave in to multinational corporations who desire to make more and more parts overseas.
Thank you.

Sincerely,
Rick and Janice Waldemar
