FOOTNOTES

- /a/ Accomplishments reported under Field Accomplishments are those miles and monuments that are reported during the actual field survey process.
- /b/ Accomplishments reported under Office Accomplishments are those acres and miles reported after the approval of the survey plat and field notes.
- /c/ Protraction diagrams are generally produced for the U.S. Forest Service.
- /d/ National Park Service Lands.
- /e/ Corps of Engineers.
- /f/ U.S. Air Force.
- /g/ Fish and Wildlife Service.
- /h/ U.S. Army/Bureau of Indian Affairs.
- /i/ South Dakota National Guard.
- /j/ Bureau of Reclamation.
- /k/ The Geographic Coordinate Date Base (GCDB) involves the computation of coordinates, in latitude and longitude, for corners of the Public Land Survey System and is intended for use in a land or geographic information system, not for boundary determination. Township numbers are cumulative from previous years.
- /l/ Townships for which all coordinate data has been computed.
- /m/ Computed townships that have legal land description (LLD) attributes assigned.
- /n/ Performed by the Wyoming State Office.
- /o/ Performed by the Oregon State Office.
- /p/ Alaska and Eastern States are not included in the subtotals. Alaska's work emphasizes making use of alternative sources of coordinate information, while Eastern States primarily dedicates time to provide training and technical assistance to other organizations in their data collection efforts. The "Total" includes the 21,535 townships in Alaska.
