FOOTNOTES

Note: There was no Congressional action taken during Fiscal Year 1999; hence, numbers are the same as reported in the Fiscal Year 1998 PLS.

/a/ In 1996, 17,168 acres were designated as wilderness by Congress. This designation is being administered by the National Park Service.

/b/ Figures in the Wilderness Study Areas Pending column will not add up to the total shown at the bottom because some Wilderness Study Areas cross State lines and are reported in the number count for each State. The total shown for this column is the actual total number of Pending Wilderness Study Areas, taking into account the wilderness study areas that cross State lines. The acreage figures do add up to the totals shown.
