CHANGE REQUEST 2654

SUBJECT: Shared System Maintainer Hours for Resolution of Problems Detected During Health Insurance Portability and Accountability Act (HIPAA) Transaction Release Testing

This Program Memorandum (PM) provides you with updated information regarding the hours reserved to correct problems in the October 2003 release. CR 2523 reserved hours for the July 2003 release. Hours will also be reserved in the October 2003 release of each shared system maintainer for HIPAA transaction programming to rectify identified problems, allow submitter testing to be expanded, and enable successful use of the affected transactions in production. The CMS Maintenance Lead for each shared system will coordinate prioritization of current and future problems for correction by that shared system. HPBSS carriers continue to be waived from HIPAA transaction implementation and provider testing pending their conversion to the MCS shared system.

The *effective dates* of this PM are October 1, 2003.

The *implementation dates* of this PM are October 1, 2003.

This instruction is to be implemented within your current operating budget.

This PM may be discarded after January 1, 2005.
