CHANGE REQUEST 2766

SUBJECT: Healthcare Provider Taxonomy Codes (HPTC) Crosswalk

Background

The Health Insurance Portability and Accountability Act of 1996 mandated the adoption of standards for conducting certain electronic data interchange health transactions. Some of the implementation guides that were adopted for those standards in the Transactions Final Rule (65FR50312) include a data element for the HPTCs. This is the code that identifies the type of health care provider involved in furnishing services to beneficiaries.

Provider Education

The National Uniform Claim Committee maintains the HPTC set. The Washington Publishing Company (WPC) makes the code set available on its Web site (<http://www.wpc-edi.com>). The latest update is dated April 1, 2003 and the new version is 3.0.1. Contractors may include this crosswalk in their bulletins, on their listserv or Web site, or in any other educational materials they have at their disposal. If a provider/supplier calls regarding their taxonomy, refer them to the WPC or CMS website. However, if the provider/supplier indicates that they are having difficulty in finding a taxonomy code, the contractor should assist them. The CMS will add this crosswalk to our provider enrollment Web site.

Implementation

Attachment 1 is the update to the crosswalk sent to the contractors on May 22, 2002, (Transmittal AB-02-074, Change Request 2105). It “walks” the existing Medicare specialty codes to the appropriate HPTC. CMS Medicare specialty codes were revised on April 1, 2003, and carriers will see some new additions. Review each crosswalk carefully since many taxonomies changed completely while others just changed the “Y” at the end of the code to “X”.

The *effective date* is April 1, 2003 and *implementation date* is July 25, 2003.

These instructions should be implemented within your current operating budget.

This PM may be discarded after April 1, 2004.

**CMS SPECIALTY CODES/HEALTHCARE PROVIDER
TAXONOMY CROSSWALK**

This table reflects Medicare Specialty Codes as of April 1, 2003.

This table reflects Healthcare Provider Taxonomy Codes as of April 1, 2003.

The CMS codes 71 and 72 were re-used by CMS for two new specialties in 2001. The following are 2003 specialty codes that have been cross-walked: 09 (Interventional Pain Management), 32 (Anesthesiologist Assistant) and 74 (Radiation Therapy Center). Specialty codes 73 (Mass Immunization Roster Billers) and 75 (Slide Preparation Facilities) cannot be cross-walked at this time and will require work with the NUCC. Specialty codes 15, 17, 21, 23, 27, 31, and 95 are presently unassigned and are not reflected in this crosswalk.
