

Chapter 21: State-specific Surveillance of Vaccine-preventable Diseases

Special Notice

This publication, the Manual for the Surveillance of Vaccine-Preventable Diseases, provides general guidance to state and local health department personnel who are involved in surveillance activities for vaccine-preventable diseases. This manual answers commonly asked questions regarding the surveillance and reporting of vaccine-preventable diseases; however, the specific laws and regulations and logistics of disease reporting are unique to each state or jurisdiction.

Each state or jurisdiction is encouraged to insert its own specific guidelines for surveillance and reporting of vaccine-preventable diseases into this manual.
