Suggested citations

Chapters 15, 16, 17, 20, and 21

Centers for Disease Control and Prevention. Manual for the surveillance of vaccine-preventable diseases. Centers for Disease Control and Prevention, Atlanta, GA, 1997.

Chapters 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 18, and 19

Centers for Disease Control and Prevention. Manual for the surveillance of vaccine-preventable diseases. Centers for Disease Control and Prevention, Atlanta, GA, 2002.

This manual is not intended to be a therapeutic guide; therefore, while dosages of antimicrobials and immunobiologics are discussed in the context of prophylaxis and treatment for cases and contacts, physicians and other health-care professionals should review the package inserts prepared by the manufacturers to determine appropriate dosages.

This manual is designed to provide general guidance regarding surveillance activities for vaccine-preventable diseases. Because recommendations for use of vaccines may change, readers should consult their local or state health department or the *Morbidity and Mortality Weekly Report* for the most current recommendations.

Use of trade names and commercial sources is for identification only and does not imply endorsement by the U.S. Public Health Service or the U.S. Department of Health and Human Services.

Acknowledgements

This manual was prepared by the Centers of Disease Control and Prevention (CDC), National Immunization Program, Epidemiology and Surveillance Division and the National Center for Infectious Diseases.

We thank colleagues in the National Immunization Program, CDC, and others who offered advice, made specific recommendations on format and content, reviewed drafts, or assisted in other ways in the preparation of this manual.

We particularly wish to acknowledge the valuable assistance of the following:

Cathy Hogan
Olen Kew
Ron Nuse
Mark Pallansch
Scott Schmid
