

**Workshop on the Longitudinal Employer-Household Dynamics Data
and the
National Longitudinal Mortality Study**

January 22, 2004
9:30 to 3:30

PROGRAM

9:00 a.m. Continental Breakfast

9:30 a.m. Longitudinal Employer-Household Dynamics Program data

The first part of this presentation will cover the design of the LEHD infrastructure micro data files (individual, household, job, employer, establishment, and geo-coding). The description will cover the technical details of the data integration. The second part will cover the use of these data in Census Research Data Centers. Particular emphasis will be placed on the components of the system currently supported at RDCs.

11:30 a.m. Use of These Data at Census Research Data Centers

This presentation will include a discussion of the current protocol for placing data on the RDC network. Presenters will discuss the project application and approval process, including the obligations of Title 13 stewardship, Title 26 considerations, and obligations imposed by other custodians. Approved projects may be conducted in authorized RDCs. At the completion of a project, there is a post-project certification process. The obligations on the researcher and the methods for dealing with peer-review of journal articles will also be discussed.

Working Lunch

1:00 p.m. The National Longitudinal Mortality Study

The presentation will include a general discussion of NLMS history of development, study content and structure, summary of research findings to date, research potential of database, NLMS expansion potential, and user data access options.

3:30 Adjourn

PRESENTERS

Longitudinal Employer-Household Dynamics Program Data, and Use of These Data at Census Research Data Centers

John Abowd Census, Senior Research Fellow, LEHD
Cornell and NBER
Principal Investigator, LEHD grants from NSF and NIA

Julia Lane Census, Senior Research Fellow, LEHD
Urban Institute
Principal Investigator, LEHD grants from NSF and NIA

Kevin McKinney Census, Economist, LEHD

Kristin Sandusky Census, Economist, LEHD

The National Longitudinal Mortality Study

Norman Johnson Census, Demographic Statistical Methods Division
Principal Investigator, NLMS

Paul Sorlie National Heart, Lung, and Blood Institute
Chair, NLMS Steering Committee

Sean Coady National Heart, Lung, and Blood Institute
NLMS PO from NHLBI

Support from the National Institute on Aging, Grant P30 AG12810, is gratefully
acknowledged.
