Subject: Spyware Workshop - Comment, P044509

hi...i would like to put in my 2 cents worth. when i am driving, i resign myself to seeing billboards and banners all over...that is a public arena...when i am surfing on the net, i am also in a public arena and also resign myself to the same advertising. when adware or spyware is then deposited on my hard drive, to me that is trespassing and a a violation of my privacy.

thank you,
