SUBJECT: Instructions for Downloading the Medicare Zip Code File

I. GENERAL INFORMATION

A. Background: Each calendar quarter, CMS issues an updated zip code file used for pricing ambulance claims and jurisdictional pricing.

Every 2 months, CMS obtains an updated listing of zip codes from the U.S. Postal Service (USPS). On the basis of the updated USPS file, CMS updates the Medicare zip code file and makes it available to contractors.

Approximately 6 weeks prior to the beginning of each calendar quarter (i.e., approximately 6 weeks prior to January 1, April 1, July 1, and October 1), CMS will make available an updated Medicare zip code file. Thus, the updated file will be available in early November for the January 1 release, early February for the April 1 release, early May for the July 1 release, and early August for the October 1 release.

When an updated file is loaded to the Connect:Direct, it will add to the inventory of zip code files on the mainframe. The name of the file is MU00.@AAA2390.ZIP.LOCALITY.Vyyyyr, where “yyyy” equals the calendar year and “r” equals the release number with January = 1, April = 2, July = 3, and October = 4.

NOTE: Even the most recently updated zip code file will not contain zip codes established by the USPS after CMS compiled the file. Therefore, for zip codes reported on claims that are not on the most recent zip code file, follow the instructions in the CMS Manual System, Publication 100-4, chapter 15, section 20.1.5.

B. Policy: This instruction describes the process for updating the Medicare zip code file.

C. Provider Education: None.
