Subject: Spyware Workshop - Comment, P044509

I would only like to say that the future of the Internet is at risk by the adware/spyware/parasiteware. I would recommend jail terms and lawsuits to stop this abuse.

If it isn't presently criminal, we need to immediately change our laws. If it is criminal, we need to immediately begin vigorously enforcing laws against spyware abusers.

Further, our government needs to quit trying to violate our privacy as well in the name of national security.

Thanks,
Keith Frazier
