Subject: Spyware Workshop - Comment, P044509

I paid for my computer. I bought the software that I placed on my computer. I pay for my internet connection. This is all MY property.

It violates my rights to privacy to have anyone place spyware on my PC. I resent popup advertising placed on my computer without my permission and without my being PAID for viewing it.

I should be allowed to surf the internet in peace, without popup ads and without anyone SPYING on me!
