Subject: Spyware Workshop - Comment, P044509

Something needs to be done about spyware. It is invasive. It is no body's business where I go on the internet. If I wanted ads I would pick up the paper.

In the last two weeks I have removed over 480 spyware applications from my computer. I don't have the time to keep removing them over and over.

PLEASE enact some LAWS which will protect my rights not to be violated.
