Subject: Spyware Workshop - Comment, P044509

This is just a short note to add my name to the list of Internet/Email users out here who are sick and tired of the incredible problem of receiving tons of SPAM every day. Each day the SPAM represents about 80% of the total email I receive on any given day.

I hope that the government can intervene in some way to stop the Internet abuse that is going on in the WWW.

Regards,

William R. Chadwick
