Subject: Spyware Workshop - Comment, P044509

Every time I get on the internet to research something or search for something I have to clean my computer from spyware or adware products. I usually find about three each time. This is just a minor aggravation but it sure does get old. A lot of people do not know to clean or how to clean, I wish something could be done to stop it. I would never knowingly buy anything from a company that used this approach.
