Spyware and Adware in my opinion is a invasion. And it should not be allowed. Not only does it slow down my computer and make it crash at times.

It's not like a TV ad where I can change the channel or turn the TV off. I have NO choice about it and IF I did I would for VOTE NO TO IT!! It effects a piece of equipment that I paid a lot of money for and it interferes with the running of it.

PLEASE vote to get rid of this..
