Subject: Spyware Workshop - Comment, P044509

Adware and spyware is an invasion of my personal property. It robs me of time and energy trying to keep up with and protect my family computers. Unchecked a computer connected to the internet can be rendered inoperable by these invasive programs. The threat these programs pose is like someone is trying to break into my home even after I have installed bars and new locks.

Please do what ever you can to stop this inappropriate behavior on the part of the creators of this type of "advertising" pariah.

Thank you for taking the time to read this.
