Subject: Spyware Workshop - Comment, P044509

It is time to put a stop to spyware programs. Nothing that I know of is more intrusive and irritating as when
I install a program I look forward to using and finding out it has spyware attached.
The only thing I can think of as worse, is when I uninstall the purchased program and find that the uninstall
did not get rid of the spyware on my system. Then I have to spend more time looking for the spyware and
do a "regedit" to get rid of it, and have that cause a system crash.
"Put a Stop to Spyware".
