Subject: Spyware Workshop - Comment, P044509

I urge the FTC to Stop the unwanted assault on my Liberties, by unscrupulous people ,who with out my consent and knowledge, down load programs to track my viewing habits. I, in no way, would be willing to give up my right to privacy as afforded in the US Constitution. I spend time each day to rid myself of these unwanted parasites. I SHOULD NOT HAVE TO DO SO!!!!

Thank YoU

Larry Spence
