Subject: Spyware Workshop - Comment, P044509

To Whom it may concern,

I am highly concerned about the ill effects and use of adware and spyware that is installed on my computer without my knowledge or permission. In my opinion this is a violation of my privacy and computer resources which are consumed by these programs. I have first hand experience with the damage adware cause when trying to remove them from you machine.

As a victim of adware programs, I would welcome any regulation and legislation to restrict or prevent the installation of these programs on a computer without disclosure and permission from the machine owner.

Your Help in this matter is greatly appreciated
