Adware and Spyware are a major problem that threaten to overcome the internet and ruin the freedom and pleasure of surfing the web. Uninvited predators are illegal in all other concepts and should be outlawed on the internet as well. I feel like someone who went for a swim and coming out of the water, find I have twenty leeches attached to my body..... would you not pluck them off and not want to go swimming anymore??????

I say OUTLAW ALL SPYWARE AND ADWARE!!!!!!
