Subject: Spyware Workshop - Comment, P044509

Dear Sir,
   I am not to happy to have to buy a program just get rid of spy
ware. I find that each time I run my spy ware program one program keeps
on coming back.. They should be allowed to put these type of files on
your computer and in a case I got to be a proxy server from Wild
Tangent. It went up to limit of my bandwidth at 512K where I had to
restart my computer to continue surfing on the net. When I bought the
spy ware I was able to get technical assistance where they help to
remove the program. Why should we need to have all these types of
programs in order to run our computer. I believe it should be outlawed
as it defeats my privacy. I have found that they are constantly trying
to put back the programs on my computer after I have deleted them. So
the bottom line is to ban them.

Sincerely,
Marvin George
