To the FTC,  
Please enact legislation to rid innocent computer users of spyware and  
adware.  
Apparently, their lawyers claim that we "consumers" are "fair game". We are VICTIMS in this scenario.  
Any time a company secretly installs just one  
piece  
of software, for whatever reason, on my computer, it is a violation of  
my privacy  
and my rights.  
Make this practice illegal, and please do it soon. Then enforce same and  
help  
rid people of this nuisance.

Thank You,
