Subject: Spyware Workshop - Comment, P044509

Please put an end to spyware and adware. I, like many others, are sick and tired of of having to load special programs to stop the spies and con artists. With all of the identity theft going on today putting an end to spyware, as well as adware should be a top priority. Doing so will help clean up the internet, making it faster, and much safer. The people doing this need to be given some jail time.
