Subject: Spyware Workshop - Comment, P044509

To whom it may concern,

Thank you for giving us the opportunity to respond to this workshop.

Please approve some new legislation or internet rules of some type to stop unwanted spyware and adaware.

These pop-ups and tracking ruin the online experience. If I frequent a web site and they want to track their count, that is not a problem, I have the choice. But the unvisited spying and constant pop-up ads violate my privacy and dramatically slow my work efficiency.

Would you please help stop the annoying and time wasting use of the internet? We pay for our online services and the time we spend online. Give me the choice.
