To Whom It May Concern,

I am a small business owner and I pay \$75 per month to file claims electronically, and I also use it to check the health information of the U.S. Mens Decathlon Club for the upcoming Olympics.

Adware/spyware is a terrible nuisance and is no ones freedom to do anything except bother the American people. We are already getting gouged when it comes to gasoline prices and we don't want adware or spyware, don't believe me but it on any ballot on any state or national election and see, I thought this was a free country, stop adware/spyware now.
