

Mon 5/17/2004

Dear Sirs,

I, as just a member of the voting public and natural born American, am having a hard time understanding what all of the debate is about. The last time I read my constitution, it stated that this was a government of the people, by the people and for the people. NOT: Of the corporation, by the corporation and for the corporation. If I choose to have these spyware programs on my computer I will ask for them. This is bugging my phone in a way. Stop these power brokers from using my computer to do their work and work that really the American public could care less about. I remember the days when your word and work stood for something. Not some garbaged collected by some weasle to tell the CEO's that this or that demographic is prone to this or that buying trend. Stop the spyware, Stop the Spam, Stop the annoying phone solicitors while you are at it.

I will state for the record: My computer I bought for my personal or professional use. And until these Faceless Cowardly Poor Little Me Multimillion Dollar Corporations Finally pays for part of my Computer, Internet access, phone bill or software price-tag will I even be ready to listen to any such argument that their rights are being trampled. Nay, You Idiots, I am a tax payer, voter and yes a real American. I am the one that the Constitution of The United States of America guaurantees rights to NOT the corporations. We are a freemarket society or so you say. Well if I want your product I will buy it. If not then you will not be in business-That my friend is FREE MARKET.....

STOP THIS MADDNESS!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Yours,

Rick Moncrief
