To: the FTC How Would You like it If Someone Were to Come into You House and Peer into All of Your Intimate Secrets. They Would Know All about You and Every Member of Your Family, and Your Family History. Well, Just as a Person That Chooses to Become a Spy for What Every Financial Gain . If They Are Caught They Are Prosecuted. Well I Think That Those Who Use Spyware Should Have the Same Think Done to Them. Spying Is Simply That Spying! I Have a Computer Business and 99% of the Time ,When I Get a Computer Back it Is Full of All Kinds of Adware and Spyware.

It Just Makes for Double Work, When All this Can Be Eliminated . Let's Stop re Hashing the Issue and Do Something about this Problem.

Glen Brown
