

Security and Investigations Center (SIC)

Fast and Reliable Background Checks

The Department of Veterans Affairs Security and Investigations Center (SIC) provides quality and timely background investigations and adjudications, fingerprint processing, and ID card design and production for government agencies. With 30 years of experience in adjudicating and granting eligibility/clearances for two levels of public trust and three levels of national security, we afford the highest levels of confidence at a competitive value. Top-level security for your government facility is one of our hallmarks and we provide it to you at the best possible value.

A secure and stable workplace is an ever-growing concern for us all. While the number of federal employees is not anticipated to increase in the near future, turnover in the workplace is great. Today, with this heightened security awareness in government, increased demand for our services is at an all time high.

By law, every federal employee in a competitive position must have a position sensitivity/risk designation. The recent increase of the number of investigations is astounding. Building security and employee safety have also become critical elements in ensuring a safe work environment. The ability to properly identify persons prior to entry into your agency has become paramount from a security standpoint.

Our Services

Our services are unparalleled and they are provided by some of the finest professionals in the field of security. Our knowledgeable and experienced team of security specialists and managers are dedicated to providing technical excellence, responsiveness, and superior performance.

- **Investigations and adjudications** identify security risks and then our experts are able to advise you of the proper course of action to take.

Our services include:

- preliminary interviews
- fingerprint processing
- investigation in partnership with the Office of Personnel Management
- final security determination for employees

Fingerprint processing at our center is reliable and secure for all government agencies and purposes.

Identification and access cards are produced quickly (in just 10 minutes) with state-of-the-art technology. Our high quality video imaging technology gives you the flexibility to design the cards to fit the unique look and needs of your agency. This advanced access-system technology guarantees the highest security and reliability.

Benefits of Doing Business With Us

- **Volume discounts** on investigations are a way we cut costs. We pass the savings to new and existing customers.
- **Security you can trust** because building security and employee safety are paramount to your successful operation. We make it possible for you to properly identify persons prior to entry into restricted areas. Our ID card services, in combination with our background investigations, provide you with the maximum possible security and safety.
- **Commitment to improvement** means that we don't rest on our laurels. We constantly monitor the quality of our programs through customer feedback and surveys. We refine and expand our services based on customer input.

How to Do Business With Us

Our services are provided on a fee-for-service basis and pricing is based on individual requirements. Arrangements for services can be made through the use of a Franchise Agreement.
