BULLETIN NO.: MGR-01-006

TO: All Reinsured Companies
All Risk Management Agency Field Offices

FROM: Kenneth D. Ackerman /s/ Kenneth D. Ackerman 1/19/01
Administrator

SUBJECT: Actuarial Addendum - Expansion of 80 and 85 Percent Coverage Levels To
Additional 2001 Crop Year Corn, Cotton, Grain Sorghum, and Soybean Actuarial
Documents

BACKGROUND:

The 80 and 85 percent coverage levels are being added in certain counties for the 2001 crop year for corn, cotton, grain sorghum, and soybeans insured under the Actual Production History (Plan 90), Income Protection (Plan 42), and Indexed Income Protection (Plan 45) plans of insurance.

ACTION:

The attached 2001 Crop Year Actuarial Addendum for corn, cotton, grain sorghum, and soybeans lists the additional States and/or Counties by crop and insurance plan where 80 and 85 percent coverage levels are being added, and the appropriate Coverage Level Rate Differentials.

Insurance providers must inform and provide this Actuarial Addendum to agents approved to sell corn, cotton, grain sorghum, and soybean insurance in these locations. Actuarial documents will not be "refiled"; however, the Actuarial Data Master will be updated to reflect this Actuarial Addendum. An updated spreadsheet and maps listing the availability of all 80 and 85 percent coverage levels may now be found under the Participation Data page on the RMA website at <http://www.rma.usda.gov/data/#coverage>. Effective no later than January 22, 2001, the updated Actuarial Data Master will be available on the RO Server, and the updated FCI-35 Coverage and Rates Actuarial Documents will be available for printing from the actuarial document browser found under Tools and Calculators on the Risk Management Agency (RMA) website at <http://www.rma.usda.gov>.
