NOTE: Medicare fee for service estimated benefit payments are based on the State of the provider. Railroad retirement benefits are allocated to the fee for service estimates. Managed care organization estimated benefit payments are distributed based on the State of the plan. Both Fee For Service and Managed Care payments are on a paid basis. This distribution may differ from similar tables based on the State of the beneficiary. Since payments are based on the state of the provider or plan, the average payment per beneficiary is not meaningful and will no longer be provided.
