CHANGE REQUEST 2920

I. SUMMARY OF CHANGES: This revision provides updated information regarding the hours reserved to correct problems in the April 2004 release. Program Memorandum AB-03-111, Change Request 2789, reserved hours for the January 2004 release. Hours will also be reserved in the April 2004 release of each shared system maintainer for HIPAA transaction programming to rectify identified problems, allow submitter testing to be expanded, if necessary, and enable successful use of the affected transactions in production. The CMS maintenance lead for each shared system will coordinate prioritization of current and future problems for correction by that shared system.
