DIVISION OF SCIENCE RESOURCES STUDIES

The Division of Science Resources Studies (SRS) fulfills the legislative mandate of the National Science Foundation Act to ...

provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the Federal Government...

To carry out this mandate, SRS designs, supports, and directs periodic surveys as well as a variety of other data collections and research projects. These surveys yield the materials for SRS staff to compile, analyze, and disseminate quantitative information about domestic and international resources devoted to science, engineering, and technology.

If you have any comments or suggestions about this or any other SRS product or report, we would like to hear from you. Please direct your comments to:

ACKNOWLEDGMENTS

This report was written by Carl Shepherd and Steven Payson. Carl Shepherd is a Technology Policy Analyst for the Office of Technology Policy (OTP), Technology Administration (TA), U.S. Department of Commerce (DOC). Steven Payson is a Senior Science Resources Analyst for the Research and Development Statistics (RDS) Program, Division of Science Resources Studies (SRS), National Science Foundation (NSF).

SRS staff members providing review of the report included Mary Frase, Acting Division Director; Ron Fecso, Chief Mathematical Statistician; Larry Rausch, Chair of the SRS Peer Review Group; and Melissa Pollak and Raymond Wolfe, who are Senior Analysts. The text

was edited by Anne Houghton, Publications Manager with assistance from Julia Harriston and Tanya Gore.

A special thanks is expressed to Laurie Leonard and Jerrilyn Heller of EDO Technology Services and Analysis, who thoroughly reviewed the content of the report, and provided composition services. A special thanks is also given to Howard Bernheim, of Standard and Poor's, for his guidance and support in the authors' use of the *Compustat* database. Appreciation is further expressed to Standard and Poor's, and its parent company, The McGraw-Hill Companies, for allowing the authors to use and disseminate *Compustat* data for the top 500 U.S. companies in R&D.
